## ABOUT THE TRAINER

Jason has been a soccer player for 34 years. He has played on various club teams as well as playing in the ODP program. On several occasions Jason has traveled overseas and played competitive soccer in the Netherlands. Jason, now the owner of The Bodyshop Fitness Center in Horsham, has combined all the skills necessary to help young soccer players.

As well as soccer training, Jason also combines speed and agility and strength training to the program. He understands that without quickness and strength the athlete will not reach his or her true potential. The goal is to create a confident well balanced athlete.
